

Why A Same-Sex Marriage Will NOT Be Happening Here.

By

Reverend Fuzzy

In the State of Mississippi, as well as in many other States, the legal definition of a marriage is thus defined as the joining in Holy matrimony of one man, and one

woman. True, you could gripe and protest a lot, and even get Congress involved, and have some laws changed, but even with changes in the way things are defined, and litigated, it cannot and WILL NOT change what is strictly defined in God's law. And no amount of griping and crying and protesting is going to make me defy God's law for you. Don't like it? Tough tacos.

Sincerely,
